SUMMARY

Detail-oriented Information Technology graduate with hands-on experience in Software Quality Assurance through internship work. Strong foundation in system testing, documentation, and collaborative development using Agile/Sprint methodologies. Consistent academic achiever with a strong commitment to contributing effectively and continuing professional growth.

EDUCATION

BS in Information Technology with specialization in Mobile and Internet Technologies **Graduated: 2025**
National University – Fairview

AWARDS AND CERTIFICATIONS

Academic Achievements

- Graduated Summa Cum Laude
- Consistent Dean's Lister (2021–2025)
- DOST-NCR Reinventing Cities Competition, 3rd Place

Certifications

- Microsoft Certified: Azure AI Fundamentals
- IBM Skills Build: Agile and Operations Fundamentals

ACADEMIC PROJECTS

NUFV Office Supplies Request and Inventory Management System **November 2023**

- Developed system features for inventory tracking and asset request management.
- Assisted in system development, testing, and validation to ensure functional accuracy.
- Improved efficiency of inventory and asset request processes through automation.

Aqua Sense: An Arduino-Based Water Monitoring and Detection System **October 2024**

- Led project planning, task assignment, and progress tracking.
- Assisted in the development and testing of integrated hardware components and mobile application, including sensors integration.
- Collected and analyzed sensor data to verify accuracy and system reliability.

EXPERIENCE

Software Quality Assurance Intern | GHD PTY LTD **December 2024 – June 2025**

- Completed a 6-month internship in software quality assurance.
- Performed manual testing on web-based application to identify bugs and usability issues.
- Created and executed test cases based on functional requirements.
- Documented bug and test execution results and tracked issues for resolution.
- Assisted in regression testing to ensure system stability before release.

SKILLS AND COMPETENCIES

- Programming Languages: CSS, Tailwind CSS, React, JavaScript, PHP, SQL, and Python
- Manual Software Testing
- Test Cases Documentation
- Web Application Testing
- Agile / Sprint Methodology
- Analytical and problem-solving
