MARK JODDY APOSTOL

Caloocan City, Metro Manila | markjoddy27@gmail.com | 0927 191 6119 | linkedin.com/in/mark-joddy-apostol-02b158221/

SUMMARY

Information Technology graduate with hands-on experience in manual software testing gained through a 6-month Software Quality Assurance internship. Experienced in test case design and execution, functional and regression testing, defect identification and test documentation using JIRA and Confluence. Familiar with web application testing and Agile/Sprint environments, with a strong attention to detail and interest in building a career in Software Quality Assurance.

EDUCATION

BS in Information Technology with specialization in Mobile and Internet Technologies **Graduated: 2025**
National University – Fairview

AWARDS AND CERTIFICATIONS

Academic Achievements

- Graduated Summa Cum Laude
- Consistent Dean's Lister (2021–2025)
- DOST-NCR Reinventing Cities Competition - 3rd Place

Certifications

- Microsoft Certified: Azure AI Fundamentals
- IBM Skills Build: Agile and Operations Fundamentals

PROFESSIONAL EXPERIENCE

Software Quality Assurance Intern | GHD PTY LTD **December 2024 – June 2025**

- Created and executed manual test cases for a web-based e-Procurement application based on functional requirements.
- Performed functional and regression testing to verify system behavior and identify defects before release.
- Identified, documented, and reported software defects using JIRA, including relevant details to support investigation and resolution.
- Maintained test cases and documented test execution results using Confluence.
- Retested resolved defects and verified fixes to ensure reported issues were properly addressed.

ACADEMIC PROJECTS

NUFV Office Supplies Request and Inventory Management System **November 2023**

- Developed system features for inventory tracking and asset request management.
- Improved the efficiency of inventory and asset request processes through a centralized system.

Aqua Sense: An Arduino-Based Water Monitoring and Detection System **October 2024**

- Tested sensor data accuracy and validated system reliability under different conditions.
- Performed test scenarios for hardware and mobile application integration.
- Identified and assisted in debugging system issues during development and testing.

SKILLS AND COMPETENCIES

- **QA and Software Testing:** Manual Testing, Test Case Design, Test Execution, Functional Testing, Regression Testing, Test Documentation, Defect Identification and Reporting
- **Tools:** JIRA, Confluence
- **Technical:** JavaScript, PHP, SQL, HTML, CSS, Tailwind CSS, React
- **Methodologies and Soft Skills:** Agile/Sprint Methodologies, Problem-Solving, Attention to Detail
